N (tapered spindle)	Steel	Yes	<b>450074</b>	520016	520017
N (tapered spindle)	Aluminum	No	<b>410075</b>	520016	520017
N (tapered spindle)	Aluminum	Yes	<b>450075</b>	520016	520017
P (parallel spindle)	Steel	No	<b>410076</b>	520018	520019
P (parallel spindle)	Steel	Yes	<b>450076</b>	520018	520019
P (parallel spindle)	Aluminum	No	<b>410077</b>	520018	520019
P (parallel spindle)	Aluminum	Yes	<b>450077</b>	520018	520019

**CentriSet<sup>®</sup> Hub System is a Pre-Adjusted  
Low Maintenance, Low Weight, & Low Cost  
Premium Long-Life Wheel-End System**

CentriSet<sup>®</sup> provides:

- A high quality, lightweight ductile iron hub that offers higher strength and increased resistance to damage than aluminum hubs, at an economical cost
- Premium bearing components and an advanced high-performance seal to ensure low maintenance operation, helping to reduce maintenance costs
- Easy installation due to built-in bearing settings, no installation adjustment is required
- 5 Year / 500,000 mile warranty

Get more for less with CentriSet<sup>®</sup> ...

More reliability with less maintenance, less weight, and less cost!
